

S2

YORKSHIRE * \$75 per dose

Breeder:
Goff Select Swine Genetics, Marion, Ind.

Current Owners:
Center Prairie Genetics

Class winner from the 2011 Summer Type Conference, S2 is sired by our herd boar, Mr. Structure. Just look at his balance, bone and foot size! He will make Yorkshire hogs heavier structured—which needs to be addressed within today's Yorkshire population. He is of impeccable design and structural correctness and drives solidly off his hip and hock.

BG8 TCG Full Dimension 20-10
