

# Secret Mission

**CROSSBRED \* Negative \* \$75 per dose**

**Breeders:**  
Hoge & Walters, Walnut, Ill.

**Current Owner:**  
Center Prairie Genetics

An extremely wide based, heavy structured, big bodied boar that is expressively muscled. He is as wide as you can make one and still possesses excellent soundness and flexibility. If you're looking for moderate, wide, heavy muscled and sound—here he is! Just the kind of boar everyone wants to use! Due to age and timing he saw limited use in the fall of 2010. His offspring have been very competitive in the summer of 2011. We look forward to great things from him in the days to come.

Alleluia

**SECRET MISSION**

Recovery

DOB: 2010

*Purchased private treaty.*

**Each of our sires was selected for a purpose—let us tell you their strengths.**
